

NAFNASKRÁ YFIR GRÍMNI 1–3.

Í listanum eru einkum örnefni en einnig fuglanöfn, goðanöfn og stöku viðskeyti. Textinn er skannaður inn og gátaður eftir fönngum en athuga þarf dæmin í viðeigandi hefti áður en þau eru tekin upp. Feitletuð eru þau orð sem eru uppflettiorð í *Safni til íslenzkrar örnefnabókar* (í öllum heftum Grímnis) eða sérstök grein er skrifuð um. Listanum er tölvuraðað eftir íslenska stafrófinu sem greinir milli broddstafa en gerir ekki greinarmun á mismunandi gerðum ‘ö’ (ö, ø, o, ó) eða ‘æ’ (æ, œ), og skandinavísku stöfunum ‘å’ og ‘ä’ er raðað eins og ‘a’. Á stöku stað getur svigi skekkt stafrófsröðun.

Upphafsstafir eftir örnefnum gefa til kynna í hvaða landi þau er að finna. D=Danmörk, E=England, F=Finland, Fær=Færeyjar, N=Noregur, S=Svíþjóð, Þ=Þýskaland o.s.frv. Íslensk örnefni eru ekki auðkennd sérstaklega.
